Strategic Plan

Adopted 8 December 2017

A guiding document outlining the strategic priorities, goals and objectives to move NAIMES forward toward our vision of advocating for and influencing decisions that impact policy, legislation, and practices that safeguard the academic success of military-affiliated students.
EXECUTIVE SUMMARY

Mission and Vision
NAIMES is an organization dedicated to excellence and advocacy for military-affiliated students. Each of the NAIMES’ member institutions is committed to fulfilling our vision to advocate for and influence decisions that impact policy, legislation, and practices that safeguard the academic success of military-affiliated students.

History
NAIMES was founded in 1975 in Los Angeles, CA. Its first by-laws were adopted on that date and have continued in force with only minor modifications since then. Over the years, NAIMES developed a pattern of annual and semiannual meetings among its institutional representatives to discuss the relationship of the institutions with the Department of Defense (DoD) and with the individual military services. Of immediate and continuing concern was the desire of the member institutions to meet and exceed quality standards established by the military services. From its beginnings, NAIMES sought to provide a collective voice for the institutions to assist the DoD’s established regulations for the department’s Voluntary Education Programs.

Impact
NAIMES as an organization is dedicated to the delivery of quality postsecondary education programs to the global military community. Through collaborative partnerships with DoD voluntary education leadership, sister organizations, and local, state, and federal agencies, NAIMES is committed to positively affecting the academic and professional success of students in the military community, no matter where in the world they may be stationed.

Keys to Success
The NAIMES’ organization will only be successful if each of its member institutions remains dedicated to our guiding principles. Putting words into action through our advocacy efforts; demonstrating behaviors that are ethical and reflective of our mission and vision; establishing partnerships through collaborative and transparent dialogue; and, treating each other and our constituents with respect are the ingredients that make the best recipe for the success of our military-affiliated students both in the classroom and in the workforce. The NAIMES’ organization is only as effective as its individual parts, so each member institution must embrace these core values and beliefs and consistently demonstrate them through relevant and tangible action and means.

Conclusion
The pages of this Strategic Plan detail the organization’s five-year strategic priorities, objectives and goals that are adaptable and flexible, allowing NAIMES to respond to a rapidly changing and sometimes turbulent environment that has proven to impact military-affiliated students both positively and negatively. It is our collective responsibility to ensure that these students receive the best possible educational opportunities that lead to meaningful and fulfilling professional careers and protect their financial resources and time spent in the classroom.
